Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for contents of text-input area

Checker Input

Show ☑ source   ☐ outline   ☐ image report

[Options…]

Check by [text input ⌄]   ☐ css

```
                        <div class="approval">

                            <i
                                class="material-icons not-
approved">clear</i>

                            <p class="not-approved bold">
                                due by
                                07/01/23
                                <br>
                            </p>

                        </div>
                    </div>
```

[Check]

Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.

[Message Filtering]

Document checking completed. No errors or warnings to show.
